

ALLERGEN DECLARATION & IFRA STANDARDS

PRODUCT NAME: Juicy Apples

ALLERGENS	CONTENT%
Hexylcinnamaldehyde	3.0
Lilial	0.8

ALLERGEN DECLARATION & IFRA STANDARDS

IFRA STANDARDS

Juicy Apple

The above-mentioned fragrance ingredient is in compliance with the requirements of the Code of Practice of the International Fragrance Association (IFRA – 50th amendment) provided that it is used in the following applications (classes) at the maximum level of:

Applications	Maximum Level	Applications	Maximum Level
	of use		of use
Class 1	0.0%	Class 7A	5.0%
Class 2	11.25%	Class 7B	5.0%
Class 3	5.0%	Class 8	2.13%
Class 4	100.0%	Class 9	12.5%
Class 5A	7.5%	Class 10A	12.5%
Class 5B	6.25%	Class 10B	78.75%
Class 5C	6.25%	Class 11A	2.13%
Class 5D	2.13%	Class 11B	2.13%
Class 6	0.0%	Class 12	100%

The above-mentioned fragrance ingredient does not contain any substances prohibited by IFRA. The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

ALLERGEN DECLARATION & IFRA STANDARDS

DEFINITION OF IFRA CLASSES 50TH AMENDMENT

Products applied to the lips Class 1 Products applied to the axillae Class 2 Products applied to the face/body using fingertips Class 3 Products related to fine fragrance Class 4 Products applied to the face and body using the hands (palms), primarily leave on Class 5 Body lotion products applied to the body using the hands (palms), primarily leave—on Class 5A Face moisturizer products applied to the face using the hands (palms), primarily leave—on Class 5B Hand cream products applied to the face using the hands (palms), primarily leave—on Class 5B Hand cream products applied to the hands using the hands (palms), primarily leave—on Class 5B Products with oral and lip exposure Class 5D Products with oral and lip exposure Class 6P Products applied to the hair with some hand contact Class 7A Reave—on products applied to the hair with some hand contact Class 7B Products with significant anogenital exposure Class 8P Products with body and hand exposure, primarily rinse off Class 9P Household care products with mostly hand contact Class 10A Household care excluding aerosol products (excluding aerosol/spray/products Class 10A Household aerosol/spray products Class 10A Household aerosol/spray products Class 11A Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with potential UV exposure		1
Products applied to the axillae Products Applied to the face/body using fingertips Class 3 Products related to fine fragrance Products Applied to the face and body using the hands (palms), primarily leave on Class 5 Rody lotion products applied to the body using the hands (palms), primarily leave on Class 5 Rody lotion products applied to the face using the hands (palms), primarily leave-on Class 5B Class 5B Class 6B Class 5B Class 5B Class 6B Class 6B Class 7B Class 5B Class 6B Class 5D Class 6B Class 6B Class 6B Class 7B Class 6B Class 7B Class 10B Class 11B	Product types	IFRA class
Products applied to the face/body using fingertips Class 3 Products related to fine fragrance Class 4 Products applied to the face and body using the hands (palms), primarily leave on Class 5 Body lotion products applied to the body using the hands (palms), primarily leave-on Class 5A Cace moisturizer products applied to the face using the hands (palms), primarily leave-on Class 5B Class 5B Class 5B Class 5D Croducts with oral and lip exposure Class 5D Croducts applied to the hair with some hand contact Class 7B Class 6P Croducts Applied to the hair with some hand contact Class 7B Croducts with significant anogenital exposure Class 7B Croducts with body and hand exposure, primarily rinse off Class 9D Class 10 Class 10 Class 10 Class 10 Class 10 Class 11 Clas	Products Applied to the lips	Class 1
Products related to fine fragrance Class 4 Products applied to the face and body using the hands (palms), primarily leave on Class 58 Body lotion products applied to the body using the hands (palms), primarily leave—on Class 5A Cace moisturizer products applied to the face using the hands (palms), primarily leave—on Class 5B Class 5B Class 5B Class 5D Class 6D Class 6D Class 6D Class 6D Class 6D Class 7D Class 6D Class 7D Class	Products applied to the axillae	Class 2
Products applied to the face and body using the hands (palms), primarily leave on Class 58 Body lotion products applied to the body using the hands (palms), primarily leave-on Class 5A Cace moisturizer products applied to the face using the hands (palms), primarily leave-on Class 5B Class 5B Class 5B Class 5D Class 6D Class 7D Class 6D Class 7D Class 7	Products applied to the face/body using fingertips	Class 3
Class 5A Cace moisturizer products applied to the body using the hands (palms), primarily leave—on Class 5B Cace moisturizer products applied to the face using the hands (palms), primarily leave—on Class 5B Class 6B Class 6B Class 6B Class 6B Class 6B Class 7B Class 10 Cla	Products related to fine fragrance	Class 4
Class 5B Hand cream products applied to the face using the hands (palms), primarily leave—on Class 5B Baby creams, baby oils and baby talc Class 5D Products with oral and lip exposure Class 6P Products applied to the hair with some hand contact Class 7B Class 10 Class 7B Class 7B Class 7B Class 7B Class 7B Class 7B Class 10 C	Products applied to the face and body using the hands (palms), primarily leave on	Class 5
Hand cream products applied to the hands using the hands (palms), primarily leave—on Class 5C Baby creams, baby oils and baby talc Class 5D Products with oral and lip exposure Class 6 Products applied to the hair with some hand contact Class 7 Rinse—off products applied to hair with some hand contact Class 7B Products with significant anogenital exposure Class 8P Products with body and hand exposure, primarily rinse off Class 9P Household care products with mostly hand contact Class 10P Household care excluding aerosol products (excluding aerosol/spray/products Class 10P Household aerosol/spray products Class 10P Croducts with intended skin contact but minimal transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.A With potential UV exposure	Body lotion products applied to the body using the hands (palms), primarily leave-on	Class 5A
Baby creams, baby oils and baby talc Products with oral and lip exposure Class 6 Products applied to the hair with some hand contact Class 7 Rinse-off products applied to hair with some hand contact Class 7A Leave-on products applied to the hair with some hand contact Class 7B Products with significant anogenital exposure Class 8B Products with body and hand exposure, primarily rinse off Household care products with mostly hand contact Class 10B Household care excluding aerosol products (excluding Aerosol/spray/products Class 10B Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11B Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11B Class 11B	Face moisturizer products applied to the face using the hands (palms), primarily leave-on	Class 5B
Products with oral and lip exposure Products Applied to the hair with some hand contact Class 7 Rinse-off products applied to hair with some hand contact Class 7A Leave-on products applied to the hair with some hand contact Class 7B Products with significant anogenital exposure Class 8 Products with body and hand exposure, primarily rinse off Class 9 Household care products with mostly hand contact Class 10 Household care excluding aerosol products (excluding aerosol/spray/products Class 10 Class 10.E Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.A Without UV exposure	Hand cream products applied to the hands using the hands (palms), primarily leave-on	Class 5C
Products applied to the hair with some hand contact Class 7 Rinse-off products applied to hair with some hand contact Class 7A Leave-on products applied to the hair with some hand contact Class 7B Products with significant anogenital exposure Class 8 Products with body and hand exposure, primarily rinse off Household care products with mostly hand contact Class 10 Household care excluding aerosol products (excluding aerosol/spray/products Class 10A Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11A Class 11B Class 11B Class 11B	Baby creams, baby oils and baby talc	Class 5D
Rinse-off products applied to hair with some hand contact Class 7A Leave-on products applied to the hair with some hand contact Class 7B Products with significant anogenital exposure Class 8 Products with body and hand exposure, primarily rinse off Class 9 Household care products with mostly hand contact Class 10 Household care excluding aerosol products (excluding aerosol/spray/products Class 10A Household aerosol/spray products Class 10A Products with intended skin contact but minimal transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11A Class 11B Class 11B Class 11B Class 11B	Products with oral and lip exposure	Class 6
Leave—on products applied to the hair with some hand contact Products with significant anogenital exposure Products with body and hand exposure, primarily rinse off Class 8 Class 9 Class 9 Class 10 Class 11	Products applied to the hair with some hand contact	Class 7
Products with significant anogenital exposure Products with body and hand exposure, primarily rinse off Class 9 Household care products with mostly hand contact Household care excluding aerosol products (excluding aerosol/spray/products Class 10 Class 11	Rinse-off products applied to hair with some hand contact	Class 7A
Products with body and hand exposure, primarily rinse off Household care products with mostly hand contact Household care excluding aerosol products (excluding aerosol/spray/products Household aerosol/spray products Products with intended skin contact but minimal transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.A. Class 11.A. Class 11.A. Class 11.B. With potential UV exposure	Leave-on products applied to the hair with some hand contact	Class 7B
Household care products with mostly hand contact Household care excluding aerosol products (excluding aerosol/spray/products Household aerosol/spray products Products with intended skin contact but minimal transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.A Class 11.A Class 11.A Class 11.B Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.B	Products with significant anogenital exposure	Class 8
Household care excluding aerosol products (excluding aerosol/spray/products Class 10.E Products with intended skin contact but minimal transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.A Class 11.A Class 11.A Class 11.A Class 11.A Class 11.B Orducts with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11.B	Products with body and hand exposure, primarily rinse off	Class 9
Household Aerosol/spray products Products with intended skin contact but minimAAAI transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with out UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure	Household care products with mostly hand contact	Class 10
Products with intended skin contact but minimAAAI transfer of fragrance to skin from inert ubstrate Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate vithout UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate vith potential UV exposure Class 11.A Class 11.A Class 11.A Class 11.A Class 11.A Class 11.A	Household care excluding aerosol products (excluding aerosol/spray/products	Class 10A
Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Without UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11B With potential UV exposure	Household Aerosol/spray products	Class 10.B
vithout UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate vith potential UV exposure	Products with intended skin contact but minimAAAI transfer of fragrance to skin from inert substrate	
Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate Class 11B with potential UV exposure	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate	Class 11.A
vith potential UV exposure	without UV exposure	
	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate	Class 11B
Products not intended for direct skin contact, minimal or insignificant transfer to skin Class 12	with potential UV exposure	
	Products not intended for direct skin contact, minimal or insignificant transfer to skin	Class 12
